

Texas Commission on Environmental Quality

INTEROFFICE MEMORANDUM

To: Central Records Files (MC - 199) **Date:** February 19, 2009
Safety Kleen, Irving, Texas
Solid Waste Registration No. 55194

Thru: Michael Nelson, Supervisor
Team II, Environmental Cleanup Section II, Remediation Division

From: Jim Formby, Project Manager
Team II, Environmental Cleanup Section II, Remediation Division

Subject: Documentation of achievement of facility-wide remedy selection and remedy construction complete. (CA400/550)
EPA ID No. TX981052061✓
Hazardous Waste Permit No. 50218

Based on a file review, remedies have been selected for all units and areas of concern (AOCs) subject to RCRA/HSWA corrective action at the above-referenced facility. The RCRA milestone of facility-wide Remedy Decision (CA400)¹ has been achieved, based on the completed provisions of the compliance plan at Safety Kleen on February 1, 2008. Remedies had previously been selected for all other units and AOCs subject to corrective action at the facility.

Based on a file review, physical remedy construction has been completed facility-wide (CA550RC)². Achievement of this milestone is based on the approval of remedy completion at Safety Kleen, Irving site on February 1, 2008. Remedy completion or construction had previously been approved for all other units and AOCs subject to corrective action at the facility.

[The units and AOCs considered in this evaluation include :

RFI Units & AOCs subject to Corrective Action

Remedy Decision¹

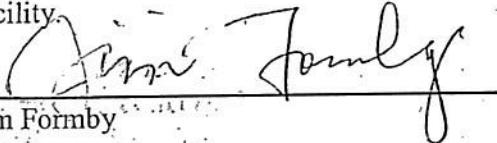

Approval of Remedy
Construction/
Completion²

RCRA Regulated, Permitted Units subject to Compliance or Corrective Action Monitoring

AOC No. 1 (Area of Concern)	February 1, 2008 ³	February 1, 2008 ³
AOC No. 2 (Area of Concern)	February 1, 2008 ³	February 1, 2008 ³

Interim Status or Unauthorized Units

To date, no additional units subject to corrective action requirements have been identified at the facility.

Jim Formby

cc: Waste Program Manager, TCEQ Region 4 Office, Dallas/Ft. Worth

Notes:

¹ "The event when the state or EPA formally selects a remedy designed to meet RCRA Corrective Action long-term goals of protection of human health and the environment. This event code also applies when no further corrective action is required because stabilization measure(s) have already been implemented or because the site characterization has demonstrated the attainment of the long-term RCRA Corrective Action goals." See RCRAInfo Data Dictionary for complete event code definition. Each unit and AOC must have an approved remedy for this event code to apply facility-wide.

² "The event when the state or EPA acknowledges in writing that the RCRA facility has completed construction of a facility's remedy that was designed to achieve long-term protection of human health and the environment, and that the remedy is fully functional as designed, whether or not final cleanup levels or other requirements have been achieved. Remedy construction may also acknowledge the event where no remedy is constructed." See RCRAInfo Data Dictionary for complete event code definition. Each unit and AOC must have an approval of the remedy construction or approval of the decision that no physical construction is needed for this event code to apply facility-wide.

³ Date confirmed through TCEQ correspondence review.

RETURN RECEIPT REQUESTED

Re: Transmittal of Class 1¹ Permit Modification
Safety-Kleen Systems, Inc.
Industrial Solid Waste Registration No. 55194
Hazardous Waste Permit No. 50218
EPA I.D. No. TXD981052061
WWC No. 12141911-1; CN600128128 / RN100704030

Dear Mr. Hoeffner:

The Texas Commission on Environmental Quality (TCEQ) has reviewed your application for a Class 1¹ permit modification dated October 29, 2007 and received on October 30, 2007, requesting to remove the compliance plan from the permit. Since the requirements of the compliance plan have been satisfied and there are no land-based units at the facility, groundwater monitoring is no longer required.

Our evaluation indicates that the information presented is sufficient for a Class 1¹ permit modification. Transmitted herewith is the modification which is now part of your permit and should be attached thereto. Please note that notice of this modification request must be made as per the requirements of Title 30 Texas Administrative Code (TAC) Sections 39.403 and 305.69(b)(1)(B) within 90 days after approval of the change.

This action is taken under authority delegated by the Executive Director of the Texas Commission on Environmental Quality.

Questions regarding this modification should be directed to Ms. Cynthia Palomares, P.G., P.E. of the Industrial & Hazardous Waste (I&HW) Permits Section at 512/239-6079. If responding by letter, please include Mail Code MC 130 in the mailing address.

Sincerely,

Katherine Nelson
